Md. Abul Basher Miah, PhD

Global Public Health Research Foundation.

House-30, Road-12, Sector-10

Uttara, Dhaka-1230

Bangladesh.

Dear Sir,

I am submitting my resume for consideration for the internship program at Global Public Health Research Foundation. Given the skills and experience outlined in my enclosed resume, I believe I will be a worthy asset to your team.

In my four years at Jagannath University, I've completed a great deal of coursework on Epidemiology and Public Health, including Fundamentals of Biostatistics and Bioinformatics, where I learned and applied skills such as study design, survey design and data analysis for gaining insights from data.

In addition, I spent the past semester volunteering my time with a local non-profit organization named Bio-Bio-1 that conducts bioinformatics research and data analysis. I helped the Bio-Bio-1 team to design workshops, courses and data cleanings.

Finally, last year working as a management lead at the Health Data Research Organization. It also helped me grow my skills in team collaboration, verbal communication and project leadership.

I believe I would make an excellent addition to your team. This internship would help me grow my real-world experience in the global health research and help me further develop and refine my research skills.

I look forward to hearing from you!

Yours faithfully,

Md. Jubayer Hossain
